

# MAGNETIC SWEEPERS

Clear work sites and important traffic areas of dangerous scrap iron or scattered ferrous metal objects with magnetic sweepers from **The Magnet Source™**. Available in sweeping widths from 8 inches to 8 feet, our sweepers are excellent for clearing small areas such as walkways, factory aisles and loading docks, or very large areas including roads, parking lots, runways and more. One of our push-type, hang-type or trailer-type models can affordably meet your needs. We guarantee strong, permanent magnetism and sturdy construction in all of our models. Order today and find out why **The Magnet Source™** is your best source for magnetic sweepers!

# PUSH-TYPE SWEEPERS

Our heavy-duty MFSM24R sweeper features an easy load-release. To unload, simply push the sweeper to the desired dumping area (i.e. a piece of cardboard) and pull the lever. As the magnet raises, collected material is released from the collector plate.

- The MFSM24R model picks up 6 lbs. of 8-penny nails, approx. 600 pcs.

Part No.	Sweeping Width	Overall Width	Approx. Shipping Wt.
MFSM24R	24"	30-1/4"	41 bs.

Some assembly required

For collecting dangerous scrap metal or collecting scattered metal items, our MFSM models are an excellent value. Although very competitively priced, these sweepers are incredibly strong and well-built. Powerful Ceramic magnets are encased in a durable aluminum housing which can be cleared of collected debris with work gloves or heavy shop towel. Easy to operate over most terrain - even in water!

- The 24" model picks up 7.5 lbs. of 8 penny nails from 2" height - approx. 680 pcs.
- 36" model converts to a hang-type sweeper
- Sturdy one-piece handle attaches easily
- Frame is 1 3/4" thick x 5" deep

Part #	Magnetic Surface Area	Sweeping Width	Overall Width	Approx. Shipping Wt.
MFSM12	60 in <sup>2</sup>	12"	16-1/2"	17 lbs.
MFSM24	120 in <sup>2</sup>	24"	28-1/2"	27 lbs.
MFSM36*	180 in <sup>2</sup>	36"	40-1/2"	41 lbs.

\* 36" model features rubber wheels with bearing packed hubs

The Pick-Up Pal™ is a powerful magnetic tool that picks up nails, bolts and other harmful scrap metal to prevent injury and loss. It contains neodymium, the most powerful magnetic material in the world.

- 35" long handle allows users to reach under vehicles, workbenches, etc.
- Strong, durable, and lightweight.

Part #	Magnetic surface	Approx. Shipping Wt.
07247	3" diameter	2 lbs.

MRS78 pictured. Chains and hooks not included.

# HANG-TYPE SWEEPERS

**These are super powered, permanent magnets for removal of sharp iron objects from roads, parking areas, loading docks, runways and other important traffic areas.**

Our hang-type magnetic sweepers greatly reduce the possibility of costly and dangerous flat tires and injuries caused by nails, scrap iron particles, welding remnants, wire, staples, tacks and metal shavings.

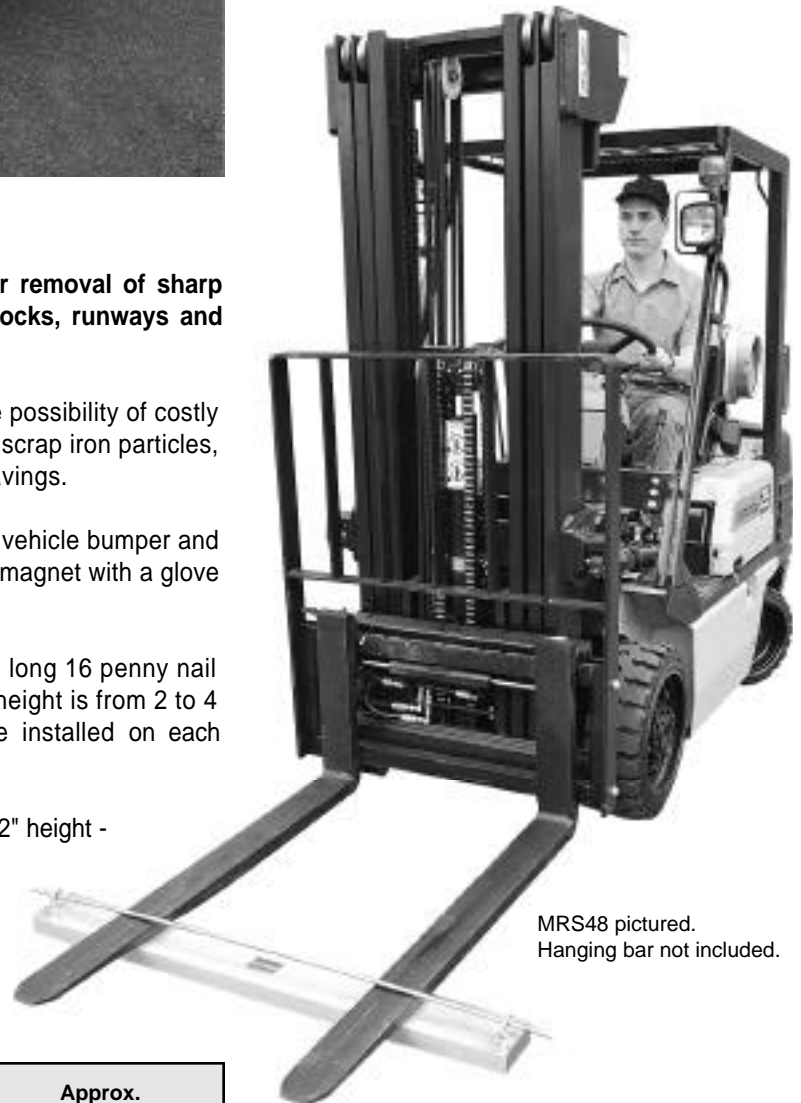

Simply hang a magnetic sweeper from your forklift or vehicle bumper and "sweep" all contaminated areas. Wipe the face of the magnet with a glove or heavy shop towel to dispose of unwanted iron.

Although the magnetic road sweeper will lift a 3-1/2" long 16 penny nail from 5" off the ground, the recommended sweeping height is from 2 to 4 inches depending on the terrain. Two eyebolts are installed on each magnet for mounting.

- The 24" model picks up 11 lbs. of 8 penny nails from 2" height - approx. 1,000 pcs.
- 1-3/4" high x 5" deep
- Available in any width, from 18" to 96"

Maximum recommended operating speed: 5 mph  
 Recommended sweeping height: 2-4 inches

Part No.	Magnetic Surface Area	Sweeping Width	Approx. Shipping Wt.
MRS24	120 in <sup>2</sup>	24"	23 lbs.
MRS48	240 in <sup>2</sup>	48"	50 lbs.
MRS78	390 in <sup>2</sup>	78"	85 lbs.

MRS48 pictured.  
 Hanging bar not included.

# TRAILER-TYPE SWEEPERS

Minimum assembly required.

**Our trailer-type sweepers make a clean sweep on the big jobs. With 6 or 8 foot sweeping widths, they can quickly clear tramp iron from streets, construction sites, runways, steel mills, welding sites and more, over smooth or unpaved surfaces!**

Like the smaller push-type and hang-type models, these big pull-type sweepers save time and maintenance costs by keeping work areas free of tramp metal debris. The heavy 3/8" x 2" steel frame with adjustable hitch withstands the roughest conditions! They are designed to operate at road speeds up to 50 mph between jobs, and up to 10 mph during sweeping. Each sweeper has two large heavy-duty magnets which have 90 lbs. pull each, and feature permanent magnetism with a lifetime warranty. Discharging collected metal is easy too. Simply pull the lever, and the load is released from the stainless steel collecting plate into the carrying pans.

Part No.	Sweeping Width	Overall Width	Overall Depth	Overall Height	Approx. Shipping Wt.
MRS172	72"	84"	56"	27"	650 lbs.
MRS196	96"	111"	56"	27"	800 lbs.
